Lets babies tap the keys for adorable on-screen fun!

This award-winning software is creatively crafted for babies 6 to 36 months old. Babies simply press any key at all on the computer keyboard and are rewarded with delightful dancing shapes, colors, adorable animal characters in magical scenes, and much more - all set to lots of wonderful music and fun sound effects. In each of the activities playful fun and laughter abound with each curious baby key press. Parents feel confident knowing that their computer is completely protected while the program is running, so babies can tap any key at all and their valuable files and computer remain completely safe. Each title includes 14 unique key-tapping activities and over 50 wonderful songs!

It's a lot of fun, and babies just love it!

**LEARNING & EDUCATION**

Babies are comfortably introduced to the computer and learn cause-and-effect relationships. Parents can further tailor baby's learning experience in various fun ways, such as discussing the shapes, colors, animals, or letters and numbers on-screen as they appear. Our titles also include our very effective mouse learning features that gently encourage baby to begin moving the mouse around and clicking the mouse button. Parents engage and enrich baby through fun-filled learning - at their own pace.

Each title includes a 2nd Bonus CD with FREE Screensaver version

Computer Funtime  
For  
**BABY**

## My Musical World

The latest program in the award-winning software series for babies is all about music!

Babies are exposed to musical instruments and musical concepts, and learn about the music all around us everyday.

Little ones can press any key on the computer keyboard to play different instruments and drums, and see adorable characters and animations. It's a ton of fun, and babies just love it!

**FEATURES**

- 14 Activities! Plus baby can play more than 20 different musical instruments!
- Includes more than 80 songs and 2 interactive music videos
- Includes both English & Spanish versions
- Includes Bonus 2nd CD with interactive screensaver version
